Slovenian team should prepare 2.TM 15.-16.4 in Ljubljana. We made plan for external visits and we should finish the program until the end of january 2019. Our module for intelectual output is **untypical wounds, deadline for first reading is until 2.™**. Visit to Croatia was very intensive, the hosts were very hospitable and generous, other partners as well. We cooperated very nice and we made the structure for future project realisation. Some pictures of our visit in Zagreb are here. Other will be published by Croatian team on official project web site:
